Geography in English is sometimes interesting because we can write on the blackboard and on the overhead projector. The exercises that we do in the atlas are also of interest. Since I was in geography in English my English has become better. I like it when we go to the computer-room and we can surf in the Internet. Mrs. Kirschner tells us interesting things that make the lessons more lively.

Eva

Johanna

Geography in English is very interesting. Sometimes we don’t understand some words, but Mrs. Kirschner explains them to us. The book is in English but that is no problem because there are many pictures. With Geography in English we can speak English better. It’s not that bad, when we have a lesson in the afternoon, because we have much fun. We think it was a good choice that we have Geography in English.

Nadine & Monika

Positive
It’s usually really fun and interesting and the texts in the book are very good. It was a good choice to choose Geography in English. We sometimes go in the computer room, which is fun.

Negative
The afternoon lessons can be a bit boring and then you can’t really concentrate because you want to go home! And the afternoon lessons can sometimes be a problem for pupils that have to go home by bus and don’t live very near to Schlehdorf. But the lessons are usually very good and interesting with Mrs. Kirschner!

Harriet

Geography in English is sometimes interesting because we can write on the blackboard and on the overhead projector. The exercises that we do in the atlas are also of interest. Since I was in geography in English my English has become better. I like it when we go to the computer-room and we can surf in the Internet. Mrs. Kirschner tells us interesting things that make the lessons more lively.

I don’t like the long afternoon lessons because it’s very hard to sit on the chair and be still for such a long time.
